## OBJECTIVE

Flutter Team Lead with 5+ years of experience architecting and delivering cross-platform mobile applications for Android, iOS, Windows, Linux, and macOS. Proven track record in leading development teams, mentoring junior developers, and managing full product lifecycles — from architecture design to App Store and Play Store deployment. Experienced in integrating AI capabilities, real-time systems, and scalable cloud backends.

## WORK HISTORY

### Lead Full Stack Developer - Startup

Faithnet Technologies July 2024 – March 2026

- Architected and led end-to-end development of the **Fellow Founder** mobile app and its **FastAPI** backend, deployed on **AWS**
- Managed full App Store and Google Play deployment pipeline for a seamless cross-platform launch
- Designed the admin dashboard using **HTMX** and **Jinja2 Templates**
- Built an AI-driven networking platform leveraging **Gemini APIs**

### Senior Flutter Developer - Part Time

DevelUp Center of Excellence Feb 2025 – August 2025

- Played a key leadership role in building the **Develup** mobile application from the ground up
- Defined overall app architecture and enforced development best practices across the team
- Ensured successful deployment and performance optimization on both App Store and Play Store

### Senior Flutter Developer

Mind Origin Technology Jul 2023 – July 2024

- Led a Flutter team of 3 developers for a large-scale **real-time trading application**
- Managed the full feature lifecycle — from planning and design through to delivery
- Delivered high-performance features including **real-time charting** and **WebSocket integration** for live trading data

## SKILLS

- **Mobile Leadership & Architecture** - Team Leadership & Mentorship, Project Management, Cross-Platform Strategy, Software Architecture (MVC/MVVM/Bloc), Code Review, CI/CD, Real-Time Systems (Web Sockets)
- **Languages & Frameworks** - Dart (**Expert**), Flutter (**Expert**), Python, React Native, HTML 5, CSS 3, JavaScript
- **Backend & Middleware** - Python **FastAPI**, REST API Design, Firebase, AWS Deployment, Postman
- **Database** - MySQL, SQLite, Hive
- **Tools & OS** - Git, VS Code, Linux, macOS, Windows
- **Flutter Expertise** - Flutter Bloc, Firebase, Google Maps API, Custom Packages, **Native Integration (APNs)**
- **AI Coding** - Github Copilot, Antigravity, Claude Code, Lovable AI

## EDUCATION

**MCA** (Distance Education)  
Annamalai University,  
Chennai, Tamil Nadu  
2021 - 2023

### BCA

Apollo Arts and Science College,  
Chennai, Tamil Nadu  
2018 – 2021

## OPEN PACKAGES CONTRIBUTED

1. Photofilters
2. Speech To Text

## Flutter Developer

Connective Links Technology Jul 2022 – May 2023

- Specialized in iOS-specific Flutter development, ensuring native performance and compatibility
- Contributed to development and maintenance of multiple **e-commerce** applications for iOS and Android

## Junior Flutter Developer

Excrin Thinklabs Jun 2021 - Jun 2022

Began career in mobile development, contributing to building and maintaining multiple Flutter applications

## KEY PROJECTS

### GDO Gifts - Team Member (Front-end Developer)

GDO Gifts is an iOS and Android Based E-commerce app which allows sending Gifts across the UAE. I have taken over the complete UI development of the App and published the App in both AppStore and Play store. I have coordinated with the SEO team and implemented Firebase Analytics ( GA4 Analytics) and so on.

**Technology Used:** Dart, Flutter, Firebase, Flutter Bloc.

### Doclense - Team Member (Front-end Developer)

Doclense is an Indian Made Open-Source Android based Flutter project. It is similar to CamScanner and can be used to convert Images into PDF. Have contributed in Making the App UI Responsive and made great contributions in making the code Clean.

**Technology Used :** Dart, Flutter.

### Watscooking Android App - Front-end Developer

Watscooking.com is a platform where food prepared by home chefs from their own home kitchens. Food lovers can find healthy home cooked foods from the home chefs nearby and connect with them instantly by making direct calls or messages.

**Technology Used:** Dart, Flutter, Google Maps API, Firebase.

### B2B Purchase Android app - Front-end Developer

B2B purchase is Indias No, 1 monthly magazine on project procurement.

**Technology Used:** Dart, Flutter.

### CBI service Android app - Front-end Developer (Freelance)

CBI service is an app to order Food, Medicine, Meat, Groceries, etc. Order by the App and Get it On Your Doorstep.

**Technology Used:** Dart, Flutter, Firebase, Postman.

### Cake Gallery - Front End Developer

Cake Gallery is an iOS and Android Based E-commerce app that allows you to Send Gifts across UAE. This is very similar to GDO Gifts and I have implemented Material UI 3 in this app, which made it more Pretty.

**Technologies used:** Dart, Flutter, Firebase Flutter Bloc, Material UI 3

3. Fancy Bottom Navigation Plus

4. Sizer Pro

5. Flutter Neumorphic

## AI-Driven Youtube Channel

- **Tamizh Aasan** - Tamil Literature based Channel
- Flux Models - Images
- Ollama - Gemma 4 - Content Creation
- Audio Generation - IndicF5 and Indic TTS
- Text Interpretation - Python Pillow
- Video Generation - FFmpeg

## **Firststock Trading Application - Front-end Developer and Flutter Team Lead**

- **Led the team** in designing and implementing **advanced charts and WebSocket services**, which were critical for the app's real-time trading functionality.
- Defined the **architectural approach** for handling high-frequency data streams using **Custom Graph Packages** and **Web Sockets**.

**Technology Used:** Dart, Flutter, Firebase, Custom Graph Packages, Web Sockets, Flutter Web.

## **The Qur'an Multilingual - Founder and Developer**

- **Pioneered a unified cross-platform strategy** to deliver a seamless user experience across **Android, iOS, Windows, Linux, and macOS**.
- Successfully integrated dynamic content fetching via an **open-source GitHub API** and managed deployment via **Netlify**, demonstrating comprehensive CI/CD and deployment expertise.

**Technology Used:** : **Flutter (Cross-Platform)**, Netlify, GitHub APIs, APNs, Android, iOS, macOS, Linux, Windows

## **Fellow Founder - Full Stack Developer**

- Architected and implemented the **full-stack solution** (Flutter mobile app, **FastAPI** backend, AWS deployment) for a robust Android and iOS application.
- Responsible for setting up the **REST API** structure and ensuring scalable and secure cloud deployment on AWS.

**Technology Used:** Flutter, REST API, Fast API, Firebase, Android, iOS, AWS Deployment, Product Managing, Antigravity, Claude Code

## **Develup - Senior Flutter Developer**

Developed a Portal for Job Searching and Course for Skills Development and implemented the app for Android and iOS.

**Technology Used:** Dart, Flutter, Firebase

## **Skolara - Flutter Developer ( Freelancing )**

Implemented Firebase and Rest API and Deployed the App in both Playstore and App Store

**Technology Used:** Dart, Flutter, Firebase, Copilot

## **Hi-Light Media - Flutter Developer ( Freelancing )**

Developed High Performance App optimised for Android TV with lowest RAM without compromising the UI/UX with

**Technology Used:** Dart, Flutter, Local Storage, Antigravity
